Tax Collector Mike Fasano Sharply Criticizes Legislature and Governor for Lack of PDMP Funding

Tax Collector Mike Fasano has issued a sharp criticism of the Florida Legislature and Governor Rick Scott for their failure to fund the Prescription Drug Monitoring Program. Fasano, sponsor of the legislation which created the Prescription Drug Monitoring Program, has long pushed for state funding of the PDMP.

“The total failure of this legislature and governor to properly protect the citizens of our state is disappointing,” Fasano states. “This is one tool that law enforcement has long supported as a means to protect our citizens. To end this legislative session without funding the PDMP has put countless lives in jeopardy.”
